# Chairman's Statement

I am pleased to present the annual report of Sinocop Resources (Holdings) Limited (the "Company") and its subsidiaries (the "Group") for the year ended 31 March 2010.

## RESULTS

During the year ended 31 March 2010, the Group had recorded a turnover of approximately HK\$389.8 million from its operation (2009: HK\$284.6 million). The increase in turnover was mainly due to the increase in both metals and minerals prices and sales volume during the year. The rise in metals and minerals prices enables a favorable gross profit margin. As a result, the gross profit had increased to approximately HK\$59.8 million during the year (2009: HK\$32.1 million).

Notwithstanding the increase in gross profit as discussed above, the Group recorded a loss of approximately HK\$32.4 million for the year as compared to HK\$24.3 million for the last year. Such an increase in loss was mainly due to the recognition of the share-based payments of approximately HK\$38.8 million (2009: HK\$2.6 million). There was also non-recurring non-cash expenses of the interest charged on convertible notes of approximately HK\$6.1 million (2009: HK\$15.9 million). By eliminating the above unfavorable non-cash expenses and the share-based payments, the Group would have recorded a net profit of approximately HK\$12.5 million (2009: net loss of HK\$5.8 million).

The loss attributable to the owners of the Company was HK\$25.2 million (2009: HK\$20.5 million). Basic and diluted loss per share for the year was HK\$0.02 per share (2009: HK\$0.0163 per share).

## DIVIDEND

The directors of the Company do not recommend the payment of any dividend for the year ended 31 March 2010.

## BUSINESS REVIEW

### Metals and minerals trading

During the year, the contributions from metals and minerals trading had shown satisfactory improvement. The improvement was mainly due to the global business environment becoming more stable, as well as a strong and stable relationship with the Group's customers in the People's Republic of China (the "PRC"). It is expected that the metals and minerals trading business will continue to improve, and the Group will continue to explore new customers in the PRC.

# Chairman's Statement

## Ores processing and trading

The Company continued with the copper ores processing and trading operation in Chile through its joint venture company, Tong Guan La Plata Company Limited ("TGLP"). TGLP was 60% held by the Company through its wholly-owned subsidiary, Sinocop Resources (Chile) Limited (previously known as "Zhong Xing Heng He Holdings Limited"). The other joint venture partners are Tong Guan Resources Holdings Ltd. and Catania Copper (Chile) Limited. TGLP's wholly-owned subsidiary in Chile, Minera Catania Verde S.A. ("Verde"), had engaged several local and international consultants in respect of the design and construction of the copper ores processing plant and had obtained environmental licenses from the Chilean Government in early 2009.

As a result of the global financial crisis happened at the end of 2008, the Group had slowed down the progress on the development of the ores processing plant in Chile. Looking back to 2009, the world economy has shown positive sign but the full effect is not clearly shown. The Group will continue to monitor the development progress closely and cautiously and adjust the development progress and review the situation from time to time.

Notwithstanding the aforementioned, Verde had continued the expenditure plan of the Chilean projects such as engaging various experts locally for the construction in progress. Also, Verde had further acquired a water use right together with the related land in Chile during the year.

## LIQUIDITY AND FINANCIAL RESOURCES

In the current year, the remaining HK\$80 million of the convertible notes issued in previous year matured and were fully redeemed by the Company with the payment of a 4% redemption premium on the outstanding aggregate amount.

Apart from the convertible notes as mentioned above, the Group generally finances its operations from internally generated cash flows and finance leases during the year. However, the Group sometimes finances its trading business by short term bank loans.

The Group's gearing ratio as at 31 March 2010 was 2.3% (2009: 69.3%), based on the total borrowings under finance leases and convertible notes totaling HK\$3.4 million (2009: HK\$87.8 million) and the equity attributable to the owners of the Company of HK\$148.0 million (2009: HK\$126.7 million).

## Chairman's Statement

Of the Group's total borrowings, HK\$2.7 million (2009: HK\$84.1 million) is due within one year, HK\$0.7 million (2009: HK\$2.9 million) is due in more than one year but not exceeding two years, and HK\$Nil (2009: HK\$0.8 million) is due in more than two years but not exceeding five years.

As at 31 March 2010, the Group had cash and bank balances of approximately HK\$77.6 million (2009: HK\$187.1 million). The Group had also obtained banking facilities with a total amount of US\$12.0 million (2009: US\$12.0 million), equivalent to approximately HK\$93.6 million (2009: approximately HK\$93.6 million), none of which had been utilised by the Group as at 31 March 2010 (2009: sanctioned by the bank to utilise US\$3.7 million). As at 31 March 2010, no bank deposit (2009: approximately HK\$23 million) was pledged to secure these banking facilities.

The operating cash flows of the Group are mainly denominated in HK dollars, US dollars and Chilean pesos. Certain bank deposits, receivables and payables of the Group are denominated in US dollars and Chilean pesos. Foreign exchange exposure in respect of US dollars is considered to be minimal as HK dollars is pegged to US dollars. For other currencies, the Group will closely monitor the currency exposure and, when considers appropriate, will take the necessary actions to ensure that such exposure is properly hedged.

### PROSPECTS

Despite the occurrence of global financial crisis in previous period, most of the major world economies and in particular the PRC, have implemented various rescuing plans to tackle the crisis, including the appropriately relaxed fiscal policies and the government expenditure on infrastructures. The business environment is more stable and has shown observable positive sign. Although the recovery of global economy is not completely shown and the international market worries on the worsening of the public finance of the European countries, it is observed that the prices of metals and minerals have increased gradually and maintained at medium-high price level. Hence, the directors remain cautiously optimistic about the future prospects of the Group's metals and minerals trading business as well as the development of the ores processing and trading business.

The directors also believe that the investment in the joint venture company, TGLP, represents a long term investment and will contribute to the Group's success and investment return in the long run.

In the meantime, the Group will continue to monitor the current market situation and may take any appropriate action as necessary which will benefit to the Group.

# Chairman's Statement

## **CONTINGENT LIABILITIES**

At 31 March 2010, the Company had provided a corporate guarantee of US\$12 million (2009: US\$12 million) to a bank in respect of banking facilities granted to the Group. The banking facilities were not utilised by the Group as at 31 March 2010 (2009: sanctioned by the bank to utilise US\$3.7 million).

## **EMPLOYEES AND REMUNERATION POLICIES**

As at 31 March 2010, the Group employed 71 (2009: 68) full time managerial and skilled staff principally in Hong Kong and Chile.

The Group remunerates and provides benefits for its employees based on current industry practice. Discretionary bonus and other individual performance bonus are awarded to staff based on the financial performance of the Group and performance of individual staff. In Chile, the Group provides staff welfare for its employees in accordance with prevailing labour legislation. In Hong Kong, the Group provides staff benefits including mandatory provident fund scheme and medical scheme. In addition, share options are granted to eligible employees in accordance with the terms of the Company's share option scheme.

## **CONCLUSION**

On behalf of the board of directors of the Company (the "Board"), I would like to thank shareholders for their continued support and I would also wish to take this opportunity to express my appreciation to my colleagues in the Board and all employees of the Group for their dedication and efforts in the past year.

By order of the Board

### **PUBLIC FLOAT**

Based on information that is publicly available to the Company and within the knowledge of the directors as at the date of this report, the Company has maintained sufficient public float as required under the Listing Rules during the year.

# Report of the Directors

## **AUDITORS**

The financial statements have been audited by BDO Limited who will retire and, being eligible, offer themselves for re-appointment. A resolution will be proposed at the forthcoming annual general meeting to re-appoint BDO Limited as the Company's auditors.

ON BEHALF OF THE BOARD

**Cheung Ngan**

*Chairman*

Hong Kong

9 July 2010

## **CORPORATE GOVERNANCE PRACTICES**

The Company has adopted the code provisions set out in the Code on Corporate Governance Practices (the "Code") as set out in Appendix 14 of the Listing Rules. The Company has applied the principles in the Code and complied with the code provisions set out in the Code for the year ended 31 March 2010 except that: (i) the roles of chairman and chief executive officer are not separated and are performed by the same individual as the Board considered that non-segregation would not result in considerable concentration of power; and (ii) the non-executive directors are not appointed for a specific term but are subject to retirement by rotation and re-election.

## **THE BOARD**

The Board is responsible for the leadership and control of the Company and overseeing the Group's business, strategic decisions and financial performances. The Board delegates to the management team the day-to-day management of the Company's business including the preparation of annual and interim reports, and for implementation of internal control, business strategies and plans developed by the Board.

The Board comprises two executive directors, one non-executive director and three independent non-executive directors. More than one-third of the Board are independent non-executive directors and one of them has appropriate accounting or related financial management expertise as required under Rule 3.10(2) of the Listing Rules.

Each of the independent non-executive directors has made an annual confirmation of independence, and the Company considers that all of the independent non-executive directors are independent in accordance with the guidelines as set out in Rule 3.13 of the Listing Rules.

# Corporate Governance Report

Board meetings were scheduled to be held at about quarterly interval. The attendance of the directors at the Board meetings for the year ended 31 March 2010 is as follows:

| <b>Name of Directors</b>    | <b>Number of attendance</b> |
|-----------------------------|-----------------------------|
| Mr. Cheung Ngan             | 4/4                         |
| Mr. Chan Chung Chun, Arnold | 4/4                         |
| Mr. Li Shaofeng             | 3/4                         |
| Mr. Chan Francis Ping Kuen  | 3/4                         |
| Mr. Hu Guang                | 3/4                         |
| Mr. Chan Chak Paul          | 3/4                         |

The current non-executive directors of the Company are not appointed for a specific term as required by code provision A.4.1. The relevant bye-law of the Company provides that all directors, including those appointed for a specific term, shall be subject to retirement by rotation at least once every three years at the Company's annual general meeting. As such, the Company considers that sufficient measures have been taken to ensure that the Company's corporate governance practices are no less exacting than those in the Code.

## **CHAIRMAN AND CHIEF EXECUTIVE OFFICER**

The roles of chairman and chief executive officer of the Company have been performed by Mr. Cheung Ngan. The Board considers that the non-segregation does not result in considerable concentration of power in one person and has the advantage of a strong and consistent leadership which is conducive to making and implementing decisions quickly and consistently. The Board will review the effectiveness of this arrangement from time to time and will consider appointing an individual as chief executive officer when it thinks appropriate.

## BOARD COMMITTEE

The Board has established two committees with clearly-defined written terms of reference. The independent views and recommendations of the two committees ensure proper control of the Group and the continual achievement of the high standard of corporate governance practices.

### Remuneration Committee

The Remuneration Committee (the "Committee") is composed of two independent non-executive directors and one executive director, being Mr. Chan Chak Paul, Mr. Chan Francis Ping Kuen and Mr. Cheung Ngan respectively. Two meetings were held during the year ended 31 March 2010 and the attendance of the members of the Committee is as follows:

| Name of Directors                      | Number of attendance |
|--|----------------------|
| Mr. Chan Chak Paul ( <i>Chairman</i> ) | 2/2                  |
| Mr. Chan Francis Ping Kuen             | 2/2                  |
| Mr. Cheung Ngan                        | 2/2                  |

The brief duties of the Committee as per the terms of reference are as follows:

- i) to make recommendations to the Board on the Company's policy and structure for the remuneration of the directors;
- ii) to have the delegated responsibilities to determine the specific remunerations package of all executive directors; and
- iii) to review and approve compensation payable to directors in connection with loss of their office or compensation arrangement relating to dismissal or removal of directors.

The Committee has every right to access to professional advice relating to remuneration proposal if considered necessary. Details of the directors' remuneration are set out in Note 9 to the financial statements.

## Audit Committee

The Company has an Audit Committee comprising three independent non-executive directors, Mr. Hu Guang, Mr. Chan Francis Ping Kuen, and Mr. Chan Chak Paul. Two meetings were held during the year ended 31 March 2010 and the attendance of the members of the Audit Committee is as follows:

| Name of Directors                              | Number of attendance |
|--|----------------------|
| Mr. Chan Francis Ping Kuen ( <i>Chairman</i> ) | 2/2                  |
| Mr. Chan Chak Paul                             | 2/2                  |
| Mr. Hu Guang                                   | 2/2                  |

During the year ended 31 March 2010, the Audit Committee had reviewed the Company's annual report for the year ended 31 March 2009, the interim report for the six months ended 30 September 2009 and the principal duties of the Audit Committee include:

- i) monitoring integrity of the Company's financial statements and reports;
- ii) reviewing of financial controls, internal controls, and risk management system; and
- iii) reviewing of the Company's financial and accounting policies and practices.

The Audit Committee is authorized by the Board to investigate any activity and seek any information it requires within its terms of reference. It is also authorized to obtain outside legal or other independent professional advice and to secure the attendance of outsiders with relevant experience and expertise if considered this necessary.

## NOMINATION OF DIRECTORS

The directors are responsible for identifying suitable qualified individual and making recommendation to the Board for consideration. The Board will apply certain criteria on selection such as the consideration of what business or financial experience that the nominated individual can bring into the Board, his or her capabilities to maintain and improve the competitiveness of the Company, and his or her ability to contribute to the Board in formulating Company's policies and strategies, as well as to the effective ways of discharging the Board's responsibilities.

## **CODE OF CONDUCT ON DIRECTORS' SECURITIES TRANSACTIONS**

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers ("Model Code") as set out in Appendix 10 of the Listing Rules as the code of conduct regarding directors' securities transactions.

Specific enquiry has been made of all the directors of the Company who have confirmed in writing their compliance with the required standards set out in the Model Code during the year under review.

## **AUDITORS' REMUNERATION**

For the year ended 31 March 2010, the auditors of the Company received approximately HK\$595,000 for audit service and no fee was payable for other non-audit services.

## **INTERNAL CONTROL**

The Board reviews the internal control system and risk management policy of the Company annually. The Board will take any necessary and appropriate action to maintain an adequate internal control system to safeguard shareholders' investments and the Company's assets. The effectiveness of the internal control system and risk management was discussed on an annual basis with the Audit Committee.

## **ACCOUNTABILITY AND AUDIT**

The directors acknowledge their responsibility for preparation of financial statements for each financial period which give a true and fair view of the state of affairs of the Company and of the Group and of the results and cash flows for that period. The directors ensure that the financial statements for the year ended 31 March 2010 were prepared in accordance with statutory requirements and applicable accounting standards, and have been prepared on the going concern basis.

## **COMMUNICATION WITH SHAREHOLDERS**

The annual general meetings or other general meetings of the Company provide opportunities for communication between the shareholders and the Board. Separate resolutions on each substantial issue are proposed at shareholders' meeting for shareholders consideration and approval.

## **To the Shareholders of Sinocop Resources (Holdings) Limited**

(中銅資源(控股)有限公司)

*(incorporated in Bermuda with limited liability)*

We have audited the financial statements of Sinocop Resources (Holdings) Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 28 to 100, which comprise the consolidated and company statements of financial position as at 31 March 2010, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

## **DIRECTORS' RESPONSIBILITY FOR THE FINANCIAL STATEMENTS**

The directors of the Company are responsible for the preparation and the true and fair presentation of the financial statements in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance. This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and the true and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

## **AUDITORS' RESPONSIBILITY**

Our responsibility is to express an opinion on the financial statements based on our audit and to report our opinion solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act and the terms of our engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free from material misstatement.

# Independent Auditors' Report

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and true and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## **OPINION**

In our opinion, the financial statements give a true and fair view of the state of affairs of the Company and the Group as at 31 March 2010 and of the loss and cash flows of the Group for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

## 1. CORPORATION INFORMATION

Sinocop Resources (Holdings) Limited (the "Company") is incorporated in Bermuda with limited liability. Its shares are listed on the Stock Exchange of Hong Kong Limited (the "Stock Exchange"). The Company's registered office is located at Clarendon House, 2 Church Street, Hamilton HM 11, Bermuda. Its head office and principal place of business is located at 37th Floor, China Online Centre, 333 Lockhart Road, Wanchai, Hong Kong.

The principal activity of the Company is investment holding. The Company and its subsidiaries (the "Group") are principally engaged in investment holding, trading of metals and minerals and processing of raw ores.

## 2. ADOPTION OF HONG KONG FINANCIAL REPORTING STANDARDS

- (a) In the current year, the Group has adopted the following new or revised Hong Kong Financial Reporting Standards ("HKFRSs"), which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations issued by the Hong Kong Institute of Certified Public Accountants that are effective for the current accounting period:

|                                  |   |
|----------------------------------|---|
| HKFRSs (Amendments)              | Improvements to HKFRSs issued in 2008, except for the amendment to HKFRS 5 that is effective for annual periods beginning on or after 1 July 2009 |
| HKFRSs (Amendments)              | Improvements to HKFRSs issued in 2009 in relation to the amendment to paragraph 80 of HKAS 39   |
| HKAS 1 (Revised)                 | Presentation of Financial Statements  |
| HKAS 23 (Revised)                | Borrowing Costs   |
| HKAS 32 and HKAS 1 (Amendments)  | Puttable Financial Instruments and Obligations Arising on Liquidation   |
| HKFRS 1 and HKAS 27 (Amendments) | Cost of an Investment in a Subsidiary, Jointly Controlled Entity or Associate   |
| HKFRS 2 (Amendment)              | Vesting Conditions and Cancellations  |
| HKFRS 7 (Amendment)              | Improving Disclosures about Financial Instruments   |
| HKFRS 8                          | Operating Segments  |

## 2. ADOPTION OF HONG KONG FINANCIAL REPORTING STANDARDS

(Continued)

(a) (Continued)

|  |   |
|--|---|
| HK(IFRIC) – Interpretation 9 and<br>HKAS 39 (Amendments) | Embedded derivatives                              |
| HK(IFRIC) – Interpretation 13                            | Customer Loyalty Programmes                       |
| HK(IFRIC) – Interpretation 15                            | Agreements for the Construction of Real Estate    |
| HK(IFRIC) – Interpretation 16                            | Hedges of a Net Investment in a Foreign Operation |
| HK(IFRIC) – Interpretation 18                            | Transfers of Assets from Customers                |

The adoption of the above new or revised HKFRSs had no material effect on the reported results or financial position of the Group for both the current and prior reporting periods, except for certain presentational change as a result of adopting HKAS 1 (Revised). The statement of financial position, previously known as balance sheet, at the beginning of the year of 2009 has not been presented as there were no changes to the originally published statement.

HKFRS 8 supersedes HKAS 14 "Segment Reporting", and requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision-makers in order to allocate resources to the segment and to assess its performance. As the business segments reported by the Group in accordance with the requirements of HKAS 14 are the same as the operating segments provided to chief operating decision-makers as required by HKFRS 8, there are no changes to the operating segments and the results of operating segments on the adoption of HKFRS 8.

<sup>2</sup> Effective for annual periods beginning on or after 1 July 2009 and 1 January 2010 as appropriate

<sup>3</sup> Effective for annual periods beginning on or after 1 July 2010 and 1 January 2011 as appropriate

<sup>4</sup> Effective for annual periods beginning on or after 1 January 2010

<sup>5</sup> Effective for annual periods beginning on or after 1 July 2010

<sup>6</sup> Effective for annual periods beginning on or after 1 January 2011

<sup>7</sup> Effective for annual periods beginning on or after 1 January 2013

The adoption of HKFRS 3 (Revised) may affect the Group's accounting for business combinations for which the acquisition dates are on or after 1 January 2010. HKAS 27 (Revised) will affect the accounting treatment for changes in the Group's ownership interest in a subsidiary. Changes in the Group's ownership interest that do not result in loss of control of the subsidiary will be accounted for as equity transactions. The Group is in the process of making an assessment of the potential impact of other new or revised HKFRSs in the period of their initial application.

# Notes to the Financial Statements

31 March 2010

## 3. BASIS OF PREPARATION

### (a) Statement of compliance

These financial statements have been prepared in accordance with all applicable HKFRSs and the disclosure requirements of the Hong Kong Companies Ordinance (the "Companies Ordinance"). The financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules").

### (b) Basis of measurement

The financial statements have been prepared under the historical cost convention.

## 4. PRINCIPAL ACCOUNTING POLICIES

### (a) Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the effective date of acquisition or up to the effective date of disposal, as appropriate.

All intra-group transactions, balances and unrealised gains on transactions between group entities are eliminated in full on consolidation. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment on the asset transferred.

Minority interests in the net assets of consolidated subsidiaries are presented separately from the Group's equity therein. Minority interests consist of the amount of those interests at the date of the original business combination and the minority's share of changes in equity since the date of the combination. Losses applicable to the minority in excess of the minority's interest in the subsidiary's equity are allocated against the interests of the Group except to the extent that the minority has a binding obligation and is able to make an additional investment to cover the losses. If the subsidiary subsequently reports profits, all such profits are allocated to the Group's interest until the minority's share of losses previously absorbed by the Group has been recovered.

## 4. PRINCIPAL ACCOUNTING POLICIES (Continued)

### (b) Business combination

Acquisition of subsidiaries and businesses is accounted for using the purchase method. The cost of the acquisition is measured at the aggregate of the fair values, at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree, plus any costs directly attributable to the business combination. The acquiree's identifiable assets, liabilities and contingent liabilities assumed in a business combination are recognised at their fair values at the acquisition date.

Goodwill arising on acquisition is recognised as an asset and initially measured at cost, being the excess of the cost of the acquisition over the Group's interests in the net fair value of the identifiable assets, liabilities and contingent liabilities recognised. If, after reassessment, the Group's interests in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities exceed the cost of the acquisition, the excess is recognised immediately in profit or loss.

The interest of minority shareholders in the acquiree is initially measured at the minority's proportion of the net fair value of the identifiable assets, liabilities and contingent liabilities recognised.

### (c) Goodwill

Goodwill is initially recognised as an asset at cost and is subsequently measured at cost less any accumulated impairment losses. Goodwill on acquisition of subsidiaries is presented separately. Goodwill on acquisition of associates, if any, is included in interests in associates.

# Notes to the Financial Statements

31 March 2010

## 4. PRINCIPAL ACCOUNTING POLICIES (Continued)

### (c) Goodwill (Continued)

For the purpose of impairment testing, goodwill arising from an acquisition is allocated to each of the Group's cash-generating units or groups of cash-generating units, that are expected to benefit from the synergies of the combination. Cash-generating units to which goodwill has been allocated are tested for impairment annually, and whenever there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit, and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On subsequent disposal of the relevant cash generating unit, the attributable amount of goodwill capitalised is included in the determination of the amount of profit or loss on disposal.

### (d) Subsidiaries

Subsidiaries are entities in which the Group has the power to govern the financial and operating policies, so as to obtain benefits from their activities. In assessing control, potential voting rights that are presently exercisable are taken into account.

In the Company's statement of financial position, the interests in subsidiaries are stated at cost less any impairment losses. The results of the subsidiaries are accounted for by the Company on the basis of dividends received and receivable.

## 4. PRINCIPAL ACCOUNTING POLICIES (Continued)

### (e) Associates

An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in the consolidated financial statements using the equity method of accounting. Under the equity method, interests in associates are carried in the consolidated statement of financial position at cost as adjusted for post-acquisition changes in the Group's share of the net assets of the associate, less impairment in the value of individual investments. Losses of an associate in excess of the Group's interest in that associate which includes any long-term interests that, in substance, form part of the Group's net investment in the associate are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

Where a group entity transacts with an associate of the Group, unrealised profits and losses are eliminated to the extent of the Group's interests in the relevant associate, except to the extent that unrealised losses provide evidence of an impairment of the assets transferred, in which case, the full amount of losses is recognised immediately in profit or loss.

### (f) Property, plant and equipment and construction in progress

Property, plant and equipment are stated at cost less accumulated depreciation and any impairment losses. The cost of an asset comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditure incurred after the property, plant and equipment have been put into operation, such as repairs and maintenance and overhaul costs, is recognised in profit or loss in the year in which it is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of the property, plant and equipment, the expenditure is capitalised as an additional cost thereof.

# Notes to the Financial Statements

31 March 2010

## 4. PRINCIPAL ACCOUNTING POLICIES (Continued)

### (f) Property, plant and equipment and construction in progress (Continued)

Depreciation is charged so as to write off the cost of items of property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period. The expected useful lives of property, plant and equipment are as follows:

|   |               |
|---|---------------|
| Freehold land and buildings                       | 20 years      |
| Leasehold improvements                            | 3 to 10 years |
| Plant and machinery                               | 5 to 15 years |
| Furniture, fixtures, equipment and motor vehicles | 3 to 5 years  |

Freehold land is not amortised.

Assets held under finance leases are depreciated over the term of the relevant leases or, where it is likely the Group will obtain ownership of the assets, the expected useful life of the assets on the same basis as owned assets.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the net sale proceeds and the carrying amount of the relevant asset and is recognised in profit or loss.

Construction in progress represents properties under construction for production, rental, or administrative purposes, which is stated at cost less any impairment loss and is not depreciated. Cost comprises the direct costs of construction, related professional fees, capitalised depreciation of machinery used for construction and capitalised borrowing costs on related borrowed funds. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

### (g) Other intangible assets

Other intangible assets mainly represent water use rights which have indefinite useful lives. Other intangible assets with indefinite useful lives are measured initially at purchase cost and are tested for impairment annually either individually or at the cash generating unit level. Such intangible assets are not amortised.

## 4. PRINCIPAL ACCOUNTING POLICIES (Continued)

### (h) Impairment of tangible and intangible assets excluding goodwill

At the end of each reporting period, the Group reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for that asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

# Notes to the Financial Statements

31 March 2010

## 4. PRINCIPAL ACCOUNTING POLICIES (Continued)

### (i) **Financial instruments**

Financial assets and financial liabilities are recognised in the statement of financial position when a group entity becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets and financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

### *i) **Financial assets***

The Group's financial assets are loans and receivables. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

#### *Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are measured at amortised cost using the effective interest method, less any impairment. Interest income is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

#### *Impairment of financial assets*

Financial assets are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired where there is objective evidence that as a result of one or more events that occurred after their initial recognition, the estimated future cash flows of the financial assets have been impacted.

## 4. PRINCIPAL ACCOUNTING POLICIES (Continued)

### (i) Financial instruments (Continued)

#### i) Financial assets (Continued)

##### *Impairment of financial assets (Continued)*

Objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation; or
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor.

If any such evidence exists, the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate, where the effect of discounting is material. This assessment is made collectively where financial assets carried at amortised cost share similar risk characteristics, such as similar past due status, and have not been individually assessed as impaired. Future cash flows for financial assets which are assessed for impairment collectively are based on historical loss experience for assets with credit risk characteristics similar to the collective group.

If in a subsequent period the amount of an impairment loss decreases and the decrease can be linked objectively to an event occurring after the impairment loss was recognised, the impairment loss is reversed through profit or loss. A reversal of an impairment loss shall not result in the asset's carrying amount exceeding that which have been determined had no impairment loss been recognised in prior years.

### (i) **Financial instruments** (Continued)

#### *i) **Financial assets** (Continued)*

##### *Impairment of financial assets (Continued)*

Impairment losses are written off against the corresponding assets directly, except for impairment losses recognised in respect of accounts and other receivables, whose recovery is considered doubtful but not remote. In this case, the impairment losses for doubtful debts are recorded using an allowance account. When the Group is satisfied that recovery is remote, the amount considered irrecoverable is written off against accounts and other receivables directly and any amounts held in the allowance account relating to that debt are reversed. Subsequent recoveries of amounts previously charged to the allowance account are reversed against the allowance account. Other changes in the allowance account and subsequent recoveries of amounts previously written off directly are recognised in profit or loss.

##### *Effective interest method*

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, or where appropriate, a shorter period.

Income is recognised on an effective interest basis for debt instruments.

## 4. PRINCIPAL ACCOUNTING POLICIES (Continued)

### (i) **Financial instruments** (Continued)

#### **i) *Financial assets*** (Continued)

##### *Derecognition of financial assets*

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire; or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

#### **ii) *Financial liabilities and equity instrument issued by the Group***

##### *Classification as debt or equity*

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

##### *Equity instruments*

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recorded at the proceeds received, net of direct issue costs.

### (i) Financial instruments (Continued)

#### ii) **Financial liabilities and equity instrument issued by the Group** (Continued)

##### *Financial liabilities*

Financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs.

Financial liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or where appropriate, a shorter period.

##### *Financial guarantee contract liabilities*

Financial guarantees are contracts that require the issuer (i.e. the guarantor) to pay for the loss the beneficiary of the guarantee (the "Holder") incurs because a specified debtor fails to make payment to the Holder in accordance with the terms of a debt instrument.

Where a company issues a financial guarantee, the fair value of the guarantee (being the transaction price, unless the fair value can otherwise be reliably estimated) is initially recognised as deferred income within trade and other payables. Where consideration is received or receivable for the issuance of the guarantee, the consideration is recognised in accordance with the company's policies applicable to that category of asset. Where no such consideration is received or receivable, an immediate expense is recognised in profit or loss on initial recognition of any deferred income.

### (i) Financial instruments (Continued)

#### ii) **Financial liabilities and equity instrument issued by the Group** (Continued)

##### *Financial guarantee contract liabilities (Continued)*

The amount of the guarantee initially recognised as deferred income is amortised in profit or loss over the term of the guarantee as income from financial guarantees issued. In addition, provisions are recognised in accordance with Note 4(l) if and when (i) it becomes probable that the holder of the guarantee will call upon the group company under the guarantee, and (ii) the amount of that claim on the group company is expected to exceed the amount currently carried in trade and other payables in respect of that guarantee i.e. the amount initially recognised, less accumulated amortisation.

##### *Compound instruments*

Convertible notes issued by the Company that contain both the liability and conversion option components are classified separately into respective items on initial recognition. Conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is an equity instrument.

On initial recognition, the fair value of the liability component is determined using the prevailing market interest rate of similar non-convertible debts. The difference between the gross proceeds of the issue of the convertible notes and the fair value assigned to the liability component, representing the conversion option for the holder to convert the notes into equity, is included in equity (convertible notes equity reserve).

### (i) Financial instruments (Continued)

#### ii) **Financial liabilities and equity instrument issued by the Group** (Continued)

##### *Compound instruments (Continued)*

In subsequent periods, the liability component of the convertible notes is carried at amortised cost using the effective interest method. The equity component, representing the option to convert the liability component into ordinary shares of the Company, will remain in convertible notes equity reserve until the conversion option is exercised (in which case the balance stated in convertible notes equity reserve will be transferred to share capital and share premium). Where the option remains unexercised at the expiry date, the balance stated in convertible notes equity reserve will be released to retained profits/accumulated losses. No gain or loss is recognised in profit or loss upon conversion or expiration of the option.

Transaction costs that relate to the issue of the convertible notes are allocated to the liability and equity components in proportion to the allocation of the gross proceeds. Transaction costs relating to the equity component are charged directly to equity. Transaction costs relating to the liability component are included in the carrying amount of the liability component and amortised over the period of the convertible notes using the effective interest method.

##### *Derecognition of financial liabilities*

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire.

## 4. PRINCIPAL ACCOUNTING POLICIES (Continued)

### (j) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and deposits held at call with banks, and other short-term highly liquid investments with original maturities of three months or less that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

### (k) Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Assets held under finance leases are recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly to profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Group's policy on borrowing costs. Contingent rentals are recognised as expenses in the periods in which they are incurred.

Operating lease payments are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

## 4. PRINCIPAL ACCOUNTING POLICIES (Continued)

### (l) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

### (m) Income tax

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the statement of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are generally recognised to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

## 4. PRINCIPAL ACCOUNTING POLICIES (Continued)

### (m) Income tax (Continued)

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Income tax is recognised in profit or loss except when it relates to items recognised in other comprehensive income, in which case the income tax is recognised in other comprehensive income, or where they arise from the initial accounting for a business combination. In the case of a business combination, the tax effect is taken into account in calculating goodwill or in determining the excess of the acquirer's interest in the net fair value of the acquiree's identifiable, liabilities and contingent liabilities over the cost of the business combination.

## 4. PRINCIPAL ACCOUNTING POLICIES (Continued)

### (n) Foreign currencies

The individual financial statements of each group entity are presented in the currency of the primary economic environment in which the entity operates (the “functional currency”). For the purpose of the consolidated financial statements, the results and financial position of each group entity are expressed in Hong Kong dollars which is the functional currency of the Company, and the presentation currency for the consolidated financial statements.

In preparing the financial statements of the individual entities, transactions in currencies other than the functional currency of that entity (the “foreign currencies”) are recorded in its functional currency at the rates of exchanges prevailing on the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the end of reporting period. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement and translation of monetary items, are recognised in profit or loss in the period in which they arise. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised in other comprehensive income, in which cases, the exchange differences are also recognised in other comprehensive income.

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Group’s foreign operation (including comparatives) are expressed in Hong Kong dollars using exchange rates prevailing at the end of reporting period. Income and expenses items (including comparatives) are translated at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates prevailing at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in the foreign currency translation reserve. Such translation differences are recognised in profit or loss in the period in which the foreign operation is disposed of.

## 4. PRINCIPAL ACCOUNTING POLICIES (Continued)

### (n) Foreign currencies (Continued)

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the exchange rates prevailing at the end of reporting period. Exchange differences arising are recognised in the foreign currency translation reserve.

### (o) Employees' benefits

#### *i) Short term benefits*

Employee entitlements to annual leave and long service payment are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service payment as a result of services rendered by employees up to the end of reporting period.

#### *ii) Employee retirement scheme*

The Group operates a Mandatory Provident Fund ("MPF") Scheme for its employees in Hong Kong. Contributions to the MPF are made based on rates applicable to the respective employees' relevant income from the Group and are charged to profit or loss as they become payable in accordance with government regulations. The Group's mandatory contributions are fully and immediately vested in favour of the employees. The assets of MPF are held separately from those of the Group in an independently administered fund.

## 4. PRINCIPAL ACCOUNTING POLICIES (Continued)

### (p) **Equity-settled share-based payments**

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest. At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss over the remaining vesting period, with a corresponding adjustment to the share options reserve.

Equity-settled share-based payment transactions with other parties are measured at the fair value of the goods or services received, except where the fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the entity obtains the goods or the counterparty renders the service.

### (q) **Borrowing costs**

Borrowing costs attributable directly to the acquisition, construction or production of qualifying asset, which require a substantial period of time to be ready for their intended use or sale, are capitalised as part of the cost of those assets. Income earned on temporary investments of specific borrowings pending their expenditure on those assets is deducted from borrowing costs capitalised. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

### (r) **Related parties**

Two parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence. Related parties may be individuals (being members of key management personnel, significant shareholders and/or their close family members) or other entities and include entities which are under the significant influence of related parties of the Group where those parties are individuals, and post-employment benefit plans which are for the benefit of employees of the Group or of any entity that is a related party of the Group.

## 4. PRINCIPAL ACCOUNTING POLICIES (Continued)

### (s) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods and services provided in the normal course of business, net of discounts. Revenue is recognised when it is probable that the economic benefits will flow to the Group and when the revenue can be measured reliably, on the following bases:

- i) revenue from sale of goods are recognised when the significant risks and rewards of ownership have been transferred to the buyer, provided that the Group maintains neither managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold; and
- ii) interest income is recognised as it accrues using the effective interest method.

## 5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

# Notes to the Financial Statements

31 March 2010

## 5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

The key assumptions concerning the future and other key sources of estimation of uncertainty at the end of reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below:

### **Estimation of useful lives of property, plant and equipment**

The Group's management determines the estimated useful lives and related depreciation charges for its property, plant and equipment. This estimate is based on the historical experience of the actual useful lives of property, plant and equipment of similar nature and functions. It could change significantly as a result of technical innovations and competitor actions in response to severe industry cycles. Management will increase the depreciation charge where useful lives are less than previously estimated lives, or it will write-off or write-down technically obsolete or non-strategic assets that have been abandoned or sold.

### **Impairment of assets**

Management periodically reviews each asset for possible impairment or reversal of previously recognised impairment. The recoverable amount of an asset is the higher of its fair value less costs to sell and value in use. If such assets are considered by management to be impaired or no longer be impaired, the impairment or reversal of impairment previously recognised is measured by the amount by which the carrying amount of the assets exceeds the estimated fair value of the assets less costs to sell. In the analysis of fair value, the Group uses independent valuations which are based on various assumptions and estimates.

### **Impairment of goodwill**

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating units to which goodwill has been allocated. The value in use calculation requires the directors to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate the present value.

## 6. SEGMENT REPORTING

The Group determines its operating segments based on the reports reviewed by the chief operating decision-maker that are used to make strategic decisions.

The Group has the following two reportable segments. The segments are managed separately as each business offers different products and services and requires different business strategies.

- Metal and minerals trading; and
- Ores processing and trading.

Inter-segment transactions are priced with reference to prices charged to external parties for similar orders. Central revenue and expenses are not allocated to the operating segments as they are not included in the measure of the segments' profit that is used by the chief operating decision-makers for assessment of segment performance.

## 12. INCOME TAX

- (a) No Hong Kong profits tax has been provided for the Company and its subsidiaries as the Group had no profit arising in Hong Kong (2009: HK\$Nil).

Overseas taxes on assessable profits of the Company or its subsidiaries, if any, are calculated at the rates of tax prevailing in the respective jurisdictions in which they operate, based on the prevailing legislation, interpretations and practices in respect thereof.

As at 31 March 2010, subject to the agreement by the Inland Revenue Department, the Group has unused tax losses of HK\$84,931,000 (2009: HK\$68,523,000) available for offset against future profits. No deferred tax asset has been recognised in respect of such losses and temporary differences due to the unpredictability of future profit streams. Such losses may be carried forward indefinitely.

- (b) The income tax for the year can be reconciled to the loss before income tax as stated in the consolidated statement of comprehensive income as follows:

|   | 2010            |                | 2009     |         |

## 13. LOSS ATTRIBUTABLE TO OWNERS OF THE COMPANY

The loss attributable to owners of the Company includes a loss of HK\$14,950,000 (2009: HK\$17,983,000) which has been dealt with in the financial statements of the Company.

## 14. DIVIDEND

No dividend has been proposed or paid by the Company in respect of the year ended 31 March 2010 (2009: HK\$Nil).

## 15. LOSS PER SHARE

The calculation of the basic loss per share attributable to owners of the Company is based on the following data:

|   | 2010<br>HK\$'000 | 2009<br>HK\$'000 |
|---|------------------|------------------|
| Loss for the year attributable to owners of the Company | <u>(25,187)</u>  | <u>(20,469)</u>  |

|                                    | 2010<br>Number       | 2009<br>Number       |
|------------------------------------|----------------------|----------------------|
| Number of ordinary shares in issue | <u>1,258,296,800</u> | <u>1,258,296,800</u> |

Diluted loss per share for the years ended 31 March 2010 and 2009 are the same as the basic loss per share as the share options granted and convertible notes outstanding during the year had an anti-dilutive effect on the basic loss per share for these years.

## 21. GOODWILL (Continued)

Goodwill arising on acquisition of a subsidiary during the year ended 31 March 2008 is allocated to the ores processing business segment and is tested for impairment at least annually.

The directors of the Company have assessed the recoverable amount of the ores processing business based on the value in use calculations and by reference to a valuation performed by an independent firm of professional valuers. The value in use calculations use cash flow projections based on financial budgets approved by management covering a ten-year period from 1 April 2010 to reflect management's long term commitments to the ores processing business and the expected useful lives of the processing plant and machinery the Group has invested or will invest.

Key assumptions used for value in use calculations:

|                     | Percentage |
|---------------------|------------|
| Gross profit margin | 44.52      |
| Discount rate       | 22.63      |

Management determined the budgeted gross profit margin based on relevant data pertaining to the various economies and the related industry. The discount rates used reflect specific risks relating to the relevant business.

The recoverable amount of the goodwill determined by the directors in the above manner suggested that there was no impairment in the value of goodwill as at 31 March 2010 and 2009.

**22. OTHER INTANGIBLE ASSETS**

|                         | <b>The Group</b>            |              |               |

| Additions               | 6,338                       | –            | 6,338         |
| Exchange realignment    | 576                         | 1            | 577           |
| <b>At 31 March 2010</b> | <b>13,346</b>               | <b>14</b>    | <b>13,360</b> |

The water use rights represent the perpetual rights for the use of water supply in Chile. These rights have indefinite useful lives and are stated at cost.

The directors determined the recoverable amount of water use rights in the manner as detailed in Note 21 to the financial statements which suggested that there was no impairment in the value of water use rights as at 31 March 2010 and 2009.

|                 | <b>5,223</b> | <b>7,272</b> |

The credit period granted by the Group to customers ranges from 30 days to 90 days.

Accounts receivable aged within 3 months were neither past due nor impaired and aged between 4 to 6 months were past due but not impaired. Accounts receivable relate to independent customers that have a good trade record with the Group and were fully settled up to the date of this report.

## 24. ACCOUNTS PAYABLE

The ageing analysis of accounts payable at the end of reporting period, based on the invoice date, was as follows:

|                | The Group |          |
|----------------|-----------|----------|
|                | 2010      | 2009     |
|                | HK\$'000  | HK\$'000 |
| Within 1 month | –         | 12,547   |

The credit period from the Group's trade creditors is 30 days to 90 days.

**25. OBLIGATIONS UNDER FINANCE LEASES**

At 31 March 2010, the Group had obligations under finance leases repayable as follows:

|                                       | Minimum        |          | Present value |          |

| Within one year                       | <b>2,885</b>   | 7,700    | <b>2,675</b>  | 6,937    |
| In the second to fifth year inclusive | <b>744</b>     | 3,943    | <b>728</b>    | 3,696    |
|                                       | <b>3,629</b>   | 11,643   | <b>3,403</b>  | 10,633   |
| Less: Future finance charges          | <b>(226)</b>   | (1,010)  |               |          |
| Present value of lease obligations    | <b>3,403</b>   | 10,633   |               |          |

It is the Group's policy to lease certain of its machinery and motor vehicles under finance leases. The average lease term is two to three years. As at 31 March 2010, the weighted average effective borrowing rate was 9.96% (2009: 10.62%). Interest rates are fixed at the contract date, and thus expose the Group to fair value interest rate risk. All leases are on a fixed repayment basis and no arrangements have been entered into for contingent rental payments.

The Group's obligations under finance leases are secured by the lessors' title to the leased assets.

## 26. CONVERTIBLE NOTES

On 31 August 2007, the Company issued a series of zero coupon convertible notes due on 31 August 2009 in an aggregate principal amount of HK\$160,000,000 to Credit Suisse (Hong Kong) Limited and Deutsche Bank AG, Singapore Branch.

The holders of the convertible notes had the rights to convert the outstanding principal amount of each convertible note of denomination of HK\$1,000,000 each in whole into the ordinary shares of the Company at an initial conversion price of HK\$1.00 per share (subject to adjustment) at any time from 1 November 2007 until a date falling 14 business days prior to the maturity date. On the maturity date, the remaining outstanding convertible notes would be redeemed by the Company at the outstanding principal amount of the convertible notes together with the redemption premium equals to 4% on the outstanding principal amount. The maturity date of the convertible notes was the second anniversary of the date of issue.

During the year ended 31 March 2008, HK\$50,000,000 of the convertible notes was converted into 50,000,000 new ordinary shares of the Company at the conversion price of HK\$1.00 per share.

On 9 December 2008, the Company entered into an agreement in relation to the early redemption of the convertible notes with the principal amount of HK\$30 million. Pursuant to the agreement, the principal amount of the convertible notes of HK\$30 million was redeemed by payment of HK\$27 million to the subscriber, and the subscriber agreed to waive all its entitlement of the redemption premium, being an amount equal to 4% on the principal amount of the convertible notes upon original maturity on 31 August 2009.

On 31 August 2009, the remaining HK\$80,000,000 of the convertible notes matured and were fully redeemed by the Company with the payment of a 4% redemption premium on the outstanding aggregate amount.

## 28. SHARE-BASED PAYMENT TRANSACTIONS

The Company operates a share option scheme (the "Scheme") for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operation.

The Scheme, which was adopted by an ordinary resolution of the shareholders at the special general meeting of the Company on 5 January 2004 (the "Adoption Date"), constitutes a share option scheme governed by Chapter 17 of the Listing Rules and will remain in force for 10 years from the Adoption Date.

## **28. SHARE-BASED PAYMENT TRANSACTIONS** (Continued)

Pursuant to the Scheme, the board of directors is empowered, at its discretion, to invite any full-time employees of the Company or any of its subsidiaries or associates, including any executive directors and non-executive directors of the Company or of any of its subsidiaries or associates, to take up options to subscribe for shares in the Company. The period during which an option may be exercised will be determined by the directors at their discretion, save that no option may be exercised later than 10 years after it has been granted. Acceptance of the offer shall be within 21 days after the date of offer of the grant of options, upon payment of a nominal consideration of HK\$1. The maximum number of shares in respect of which options may be granted under the Scheme may not exceed 10% of the aggregate of the shares of the Company in issue as at 27 December 2007, the date upon which the limit was refreshed by an ordinary resolution of the shareholders. Pursuant to the Scheme, the above limit can be further refreshed by the shareholders. However, the total number of shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Scheme shall not exceed 30% of the shares in issue from time to time. The subscription price of the share options shall not be less than the higher of (i) the closing price of the shares on the Stock Exchange on the date of offer; (ii) the average closing price of the shares on the Stock Exchange for the five trading days immediately preceding the date of offer; and (iii) the nominal value of the shares.

On 16 December 2009, the Company granted 84,800,000 options to the directors and eligible employees of the Group at the exercise price of HK\$0.46 each for a period of ten years from the date of grant.

The fair value of services received in return for share options granted is measured by reference to the fair value of share options granted. The estimate of the fair value of the share options granted is measured based on Black-Scholes model. The contractual life of the share options and expectations of early exercise are incorporated into the model.

Fair value of share options and assumptions:

The Group recognised an equity-settled share-based payment expense of approximately HK\$38,791,000 (2009: HK\$2,633,000) during the year.

## 29. RESERVES

### The Group

The amounts of the Group's reserves and the movements therein for the current and prior years are presented in the consolidated statement of changes in equity on page 31 of the annual report.

The nature and purposes of reserves are set out below:

#### (a) Share premium

The application of the share premium account is governed by Section 40 of the Companies Act 1981 of Bermuda (as amended) (the "Companies Act 1981").

#### (b) Contributed surplus

The contributed surplus represents the excess of the fair value of the shares of the subsidiary acquired over the nominal value of the Company's shares issued in exchange thereof, at the time of the Group reorganisation in preparation for the listing of the Company's shares.

Under the Companies Act 1981, a company may make distributions to its members out of the contributed surplus under certain circumstances prescribed by Section 54 thereof, which the Company is currently unable to satisfy.

## 29. RESERVES (Continued)

### The Group (Continued)

#### (c) Convertible notes equity reserve

Convertible notes equity reserve represents the value of the equity component of outstanding convertible notes issued by the Company recognised in accordance with the accounting policy adopted for convertible notes in Note 4(i)(ii).

#### (d) Share options reserve

Share options reserve comprises the fair value of the estimated number of unexercised share options granted to employees of the Group recognised in accordance with the accounting policy adopted for share-based payments in Note 4(p).

#### (e) Foreign currency translation reserve

Foreign currency translation reserve represents foreign exchange differences arising from the translation of the financial statements of foreign operations. The reserve is dealt with in accordance with the accounting policy set out in Note 4(n).

#### (f) Capital reserve

Capital reserve represents the excess of the net assets of the subsidiaries acquired by the Group from its shareholder over the consideration paid. The excess is accounted for as contributions from shareholder and credited to capital reserve.

## 30. DISPOSAL OF SUBSIDIARIES

On 24 March 2010, the Group disposed of two wholly-owned inactive subsidiaries to an independent third party for a consideration of US\$100 and US\$1 respectively. Financial information on the total assets and total liabilities disposed of has not been shown in these financial statements as the directors consider that the amounts are insignificant to the Group.

## 31. COMMITMENTS

### (a) Capital commitments

At the end of reporting period, the Group had the following capital commitments contracted but not provided for in the financial statements:

|  | <b>2010</b>     | 2009     |
|--|-----------------|----------|
|  | <b>HK\$'000</b> | HK\$'000 |

## 31. COMMITMENTS (Continued)

### (b) Operating lease commitments

At the end of reporting period, the Group was committed to make the following future minimum lease payments in respect of land and buildings under non-cancellable operating leases which fall due as follows:

|                                      | <b>2010</b>     | 2009     |
|--------------------------------------|-----------------|----------|
|                                      | <b>HK\$'000</b> | HK\$'000 |
| Within one year                      | <b>2,289</b>    | 3,480    |
| After one year but within five years | <b>431</b>      | 2,602    |
|                                      | <b>2,720</b>    | 6,082    |

The Group is the lessee in respect of a number of properties held under operating leases. The leases typically run for an initial period of one to three years. None of the leases includes contingent rentals.

## 32. NON-CASH TRANSACTION

During the year, the Group entered into finance lease arrangements in respect of property, plant and equipment with a total capital value at the inception of the leases of HK\$Nil (2009: HK\$5,313,000).

# Notes to the Financial Statements

## 33. RELATED PARTY TRANSACTIONS

- (a) Transactions between the Company and its subsidiaries, which are related parties of the Company, have been eliminated on consolidation.

Save as disclosed elsewhere in these financial statements, the Group had the following major transactions with related parties during the years ended 31 March 2010 and 2009:

- (b) On 16 October 2007, Minera Catania Verde S.A. ("Verde"), a subsidiary of the Company, entered into a master agreement (the "Master Agreement") with CAH Reserve S.A. ("CAH"), a related company in which Mr. Cheung Ngan and Mr. Chan Chung Chun, Arnold jointly and indirectly own 44% effective interest. Pursuant to the Master Agreement, Verde agrees to purchase and CAH agrees to exclusively supply and sell the copper ores extracted from CAH's mining concessions in Chile to Verde, free from all liens, charges and encumbrances.

The Master Agreement will subsist until terminated by Verde (at the discretion of Verde) by giving CAH not less than 6 months' written notice of termination any time after the 3rd anniversary of the Master Agreement.

There were no purchases from CAH during the years ended 31 March 2010 and 2009.

This related party transaction also constitutes continuing connected transactions in respect of which the Company has complied with the disclosure requirements in accordance with Chapter 14A of the Listing Rules.

- (c) The remuneration of key management personnel included directors' remuneration, which is disclosed in Note 9 to the financial statements.

## **34. CONTINGENT LIABILITIES**

As at 31 March 2010, the Company had provided a corporate guarantee of US\$12,000,000 (2009: US\$12,000,000), equivalent to approximately HK\$93,600,000 to a bank in respect of banking facilities granted to the Group. The banking facilities were not utilised by the Group at the end of reporting period.

The directors do not consider it probable that a claim will be made against the Company under the above guarantee at the end of reporting period. The Company has not recognised any deferred income in respect of the above guarantee as its fair value cannot be reliably measured and its transaction price was nil.

## **35. PLEDGED OF ASSETS**

As at 31 March 2010, the Group pledged its bank deposits of approximately HK\$Nil (2009: HK\$22,996,000) to secure banking facilities granted to the Group.

# Notes to the Financial Statements

## 36. CAPITAL RISK MANAGEMENT

The Group's objective of managing capital is to safeguard its ability to continue as a going concern to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders or issue new shares.

The capital structure of the Group consists of debts, which includes the convertible notes, the obligations under finance leases and equity attributable to owners of the Company, comprising share capital and reserves.

The gearing ratio at the end of reporting period was as follows:

|               | <b>2010</b>     | 2009     |
|---------------|-----------------|----------|
|               | <b>HK\$'000</b> | HK\$'000 |
| Debts         | <b>3,403</b>    | 87,773   |
| Equity        | <b>147,990</b>  | 126,684  |
| Gearing ratio | <b>2.3%</b>     | 69.3%    |

## 37. FINANCIAL RISK MANAGEMENT

Exposure to credit, liquidity, interest rate and currency risks arises in the normal course of the Group's business. These risks are limited by the Group's financial risk management policies and practices described below.

### **Credit risk**

The Group's maximum exposure to credit risk in the event that the counterparties fail to perform their obligations at the end of reporting period in relation to each class of recognised financial assets is the carrying amount of those assets as stated in the consolidated statement of financial position.

The Group's bank deposits and balances are deposits with banks in Hong Kong and Chile. The credit risk on these liquid funds is limited because the counterparties are banks with good credit-rating.

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The default risk of the industry and country in which customers operate also has an influence on credit risk but to a lesser extent. At the end of reporting period, the Group had a significant concentration of credit risk as 100% (2009: 70%) and 100% (2009: 100%) of the Group's trade receivables were due from the group's largest customer and the five largest customers respectively within the metal and minerals trading segment.

In order to minimise credit risk, management has delegated a team to be responsible for the determination of credit limits, credit approvals and other monitoring procedures. In addition, management reviews the recoverable amount of each individual trade and other debts regularly to ensure that adequate impairment losses are recognised for irrecoverable debts. In this regard, management considers that the Group's credit risk is significantly reduced.

## 37. FINANCIAL RISK MANAGEMENT (Continued)

### Liquidity risk

Individual operating entities within the Group are responsible for their own cash management, including the short term investment of cash surpluses and the raising of loans to cover expected cash demands, subject to approval by the parent company's board when the borrowings exceed certain predetermined levels of authority. The Group's policy is to regularly monitor its liquidity requirements and its compliance with lending covenants, to ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the short and longer term.

The following table details the remaining contractual maturities at the end of reporting period of the Group's non-derivative financial liabilities, which are based on contractual undiscounted cash flows and the earliest date the Group can be required to pay.

## 37. FINANCIAL RISK MANAGEMENT (Continued)

### Interest rate risk

The Group's interest rate risk arises primarily from borrowings. Borrowings issued at variable rates and at fixed rates expose the Group to cash flow interest rate risk and fair value interest rate risk respectively.

The Group's fair value interest rate risk mainly arises from obligations under finance leases as disclosed in Note 25. These financial liabilities were issued at fixed rates which expose the Group to fair value interest rate risk.

The Group's cash flow interest rate risk mainly arises from short term bank borrowings issued at variable rates for financing its purchase and freight and transaction costs in the ordinary course of business. The Group has not used any financial instruments to hedge potential fluctuations in interest rates. At the end of reporting period, the Group had no borrowings which bear floating interest rates.

### Foreign currency risk

The Group is exposed to currency risk primarily through transactions that are denominated in a currency other than the functional currency of the operations to which they relate. The currencies giving rise to this risk are primarily United States dollars ("USD") and Australian dollars ("AUD").

The Group currently does not have a foreign currency hedging policy. However, the management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

**37. FINANCIAL RISK MANAGEMENT** (Continued)**Foreign currency risk** (Continued)

The following table indicates the approximate change in the Group's loss after income tax and other components of consolidated equity in response to reasonably possible changes in the foreign exchange rates to which the Group has significant exposure at the end of reporting period.

|     | -   | -  | -   | (5%)  | (16)   | -   |

The sensitivity analysis has been determined assuming that the change in foreign exchange rates had occurred at the end of reporting period and had been applied to each of the group entities; exposure to currency risk for both derivative and non-derivative financial instruments in existence at that date, and that all other variables, in particular interest rates, remain constant.

The stated changes represent management's assessment of reasonably possible changes in foreign exchange rates over the period until the end of the next annual reporting period. In this respect, it is assumed that the pegged rate between the Hong Kong dollar and the United States dollar would be materially unaffected by any changes in movement in value of the United States dollar against other currencies. Results of the analysis as presented in the above table represent an aggregation of the effects on each of the group entities' loss for the year and equity measured in the respective functional currencies, translated into Hong Kong dollars at the exchange rate ruling at the end of reporting period for presentation purposes. The analysis is performed on the same basis for 2009.
